Gammon Construction Limited

INTRODUCTION OF ORGANISATION

Gammon Construction has a reputation for delivering high-quality projects throughout China and Southeast Asia. The company’s integrated business focuses on civil, building, foundations, electrical and mechanical, facades and interiors works and design, and the construction services division provides considerable plant and steel fabrication and concrete production capabilities. Gammon has a strong Building Information Modelling (BIM) department and a digital entity dedicated to furthering the commercial opportunities of the innovations.

Headquartered in Hong Kong, Gammon is a 50/50 joint venture between Balfour Beatty, a leading international infrastructure group, and Jardine Matheson, the Asian-based conglomerate.

Gammon investing in future talent through hackathons and digital internships

THREE WINNING FACTS

Gammon has an innovation incubator (Digital-G) to form strategic partnerships with world leading start-ups and the largest technology providers to drive digital transformation in both Gammon and the Hong Kong construction industry.

Gammon has a corporate digital vision that is enabled through project digital strategies measure KPI’s, as well as industry leading role specific training to ensure Gammon’s workforce has the skills to exceed the construction industry’s needs of the future.

Gammon has internally developed software and system integration to fill technology gaps and meet industry requirements, such as Inspecto for DWSS, Gambot for Safety and STAMP for MiC and DfMA delivery.
